

# Human Tanks

---

It is reported that recently, when the Japanese were advancing on a certain town in China with their tanks, the Chinese had no tanks with which to meet them. The loyal Chinese fell on to this plan: they took all the kinds of explosives that could be found and tied them on their bodies. When the Japanese advanced the Chinese rushed into them, and, of course, were blown to bits, but the Japanese were routed. The Chinese had become human tanks. They did this for their country. What will we do for Jesus?
