

Statistics on the Time Frame of the Flood

Genesis 6:8-22

One month = 30 days

Total time elapsed in the ark - 1 year, 17 days =

360 days + 17 = 377 days

7 days waiting + $\frac{150 \text{ days}}{\text{Water Prevailing}}$ + $\frac{150 \text{ days}}{\text{Water Receding}}$ + $\frac{70 \text{ days}}{\text{Earth Drying}}$ = 377 days
