

# Too Many Wars

---

A group of academics and historians has compiled this startling information: Since 3600 B.C., the world has known only 292 years of peace! During this period there have been 14,351 wars large and small, in which 3.64 billion people have been killed. The value of the property destroyed is equal to a golden belt around the world 97.2 miles wide and 33 feet thick. Since 650 B.C., there have also been 1,656 arms races, only 16 of which have not ended in war. The remainder ended in the economic collapse of the countries involved.

Our world of war needs the Prince of Peace.
